ATA / ESF Competitive Opportunities

We believe it is very important to establish a competition framework to allow students the opportunity not only to represent a team, but create opportunities for individuals to grow and accelerate their learning through competition. As our ATA / ESF tennis programme builds and the popularity of our competition and events grows we plan to expand the tournament structure in the following way commencing this term.

For information on the ATA / ESF Tennis programme please email sports@esf.org.hk or contact the ESL office on 2711 1280.
